While I know that not everyone is interested in our attendance figures, I am equally aware that a good number of people have asked from time to time. Our volunteer walk leaders take the time to report the figures for their individual groups to me, and they are recorded and reported to the Worcestershire Health Walks co-ordinator.

I have tried to make the figures a little more interesting by highlighting the highest attendance numbers for each group, and the associated venue. The mileage figures are calculated based on the distances reported for the mid week pre walks. For the Thursday short walks I have assumed 1 mile per walker.
